

WHAT IS SKIN CAMOUFLAGE?

Skin Camouflage is a paramedical permanent makeup technique that uses specialized pigments to help visually minimize the appearance of discoloration, scars, and uneven skin tone.

Each treatment is tailored to your unique skin and goals.

CUSTOM BLEND

Pigments are mixed to match your skin tone and undertone.

NATURAL FINISH

Designed to look like healthy, even-toned skin—never heavy.

Results are subtle, not surgical—helping you look like yourself.

PRECISION PLACEMENT

Layered softly to blend and neutralize areas of contrast.

PERSONALIZED CARE

A treatment plan created for your skin, your goals, your pace.

CUSTOM COLOR MATCHING

We create a custom pigment blend to complement your natural skin tone and neutralize areas of concern.

Through advanced color theory and a careful consultation, we select the perfect tones to help your skin look more even and cohesive.

PRECISION-MATCHED TO YOUR TONE

AREAS WE COMMONLY ADDRESS

- ◆ Scars, stretch marks & texture
- ◆ Vitiligo & pigment variation
- ◆ Post-surgical or trauma scars

Cosmetic color-correction procedure.
Multiple sessions may be needed.
Results vary. Consultation required.

YOUR EXPERIENCE

1. CONSULTATION

We discuss your concerns, review your medical history, and create a personalized treatment plan.

2. CUSTOM COLOR TEST

We test and confirm the best pigment match for your skin during your visit.

3. TREATMENT

Pigment is applied in thin layers to help blend and balance the appearance of your skin.

4. AFTERCARE & SUPPORT

We guide you through aftercare and are here to support your journey every step of the way.

**REAL RESULTS,
NATURALLY BLENDED**

Subtle. Seamless. You.
